#### NATURE OF RELEASE

<b>Type of Release:</b> crude oil	<b>Volume of Release:</b> 5 bbls	<b>Volume Recovered:</b> 0 bbls
<b>Source of Release:</b> facility flare line	<b>Date and Hour of Occurrence:</b> 9/24/14 time unknown	<b>Date and Hour of Discovery:</b> 9/24/14 @ ~12:00 pm
<b>Was Immediate Notice Given?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	<b>If YES, To Whom?</b>	
<b>By Whom?</b>	<b>Date and Hour:</b>	
<b>Was a Watercourse Reached?</b> <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<b>If YES, Volume Impacting the Watercourse:</b> Not Applicable	
<b>Depth to Water.</b> ~400 ft bgs		
<b>If a Watercourse was Impacted, Describe Fully.*</b> Not Applicable		

**Describe Cause of Problem and Remedial Action Taken.\*** The process vessels pressured up sending crude oil out the flare line. The pressure problem was corrected.

**Describe Area Affected and Cleanup Action Taken.\*** The release impacted approximately 1,490 sq. ft. of pipeline right of way area with oil saturation depth of less than 6". Approximately 30,000 sq. ft. of pasture area was also lightly misted. The entire impacted area was treated with micro-blaze. A sampling event will be conducted later to determine the effectiveness of the treatment and the possible need for further remediation. Based on samples collected from the site, contaminated soil has been excavated and hauled to a state approved disposal facility and the excavation backfilled with clean soil. The spill area has been remediated in accordance to the NMOCD and BLM recommended guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
