NMOCD Tracking number: 2RP-2616 * Date of release: 8/19/14

Chase,

Your proposal for remediation of the above referenced release is approved. Installation depth for the passive vent system is to be determined by further delineation for BTEX during the installation process. Please notify the District office 48 hours prior to commencement of this process.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
