RE: Devon \* Todd 26 G Federal #2 \* 30-015-20277 \* 2RP-2611

Kimberly,

Your proposed work plan for the above referenced site is approved with the following exceptions:

- The OCD will require further chloride delineation in the area of S-1;
- Confirmation samples of BTEX and TPH will be necessary in the areas of S-3, S-4, and S-5 (alternatively you can excavate these areas to 1');)
- Like approval by BLM is required for this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
