Attachments: Carl TP Com #1 Results Sketch.pdf

Mike and Heather,

Attached is a sketch of the release and the current analytical results that have been collected for the below listed location. I wanted to know if there is enough delineation shown in the current results to proceed to the Work Plan Stage or if further delineation of chlorides is necessary given that DTG is shown as 250' according to the Chevron/Texaco Trend Map?

**Carl TB Com. #1
30-015-26138
Section 22, T20S-R24E
1980 FSL & 660 FEL
Eddy County, New Mexico**

Released: Unknown amounts of P/W; Recovered: 0 P/W

Thanks,

Chase Settle
