Please find attached a Final C-141 and confirmation DRO sample (as requested by NMOCD) for the release below. After the 3" were removed from the release area a soil sample was pulled and DRO was found to be below NMOCD RRAL's for a site ranking of 10.

Thanks,  
Amber

Amber,

Your work plan is approved with the following exception:

Please provide a confirmation sample for DRO in your closure report.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
