**Subject:** Agave Energy Company: Comanche Compressor Station Spill Closure

Mike,

I am submitting the closure documentation for the spill at Agave's Comanche Compressor Station, identified by OCD tracking number 2RP-2784. I've attached a packet with the following documents:

- Final C141 form
- Site Sampling Summary
- Sampling analytical results

I'm requesting approval for closure, so that we can begin backfilling the excavation and construct the new berm, and return the tanks into service.

Please review the documentation, and contact me regarding any questions you have.

Thanks,

**Kerry Egan**  
Engineering Technician
