Daniel,

Thank you for sending in the analytics. I was in the area of the Nash 45 yesterday and swung by to inspect the site. You are approved to backfill this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather,

Attached is the Excavation Sample Map, showing sample locations and excavation area, and Table 2, showing Field and Laboratory analytical data for the Nash 45 operated by XTO Energy.
