**Date:** Wednesday, July 08, 2015 6:39:43 AM

---

This plan is approved as written by the Bureau of Land Management Carlsbad Field Office with the above listed conditions of approval. **This plan still needs to be approved by OCD.** BLM approval of this proposal does not relieve the operator of liability should their operations have failed to adequately investigate and re mediate contamination that may pose a threat to groundwater, surface water, human health, or the environment, or if the location fails to reclaim properly. In such an event that location does not re vegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws/regulations.

Thanks

RE: Cimarex \* Bonnie 35 Fed Com \* 30-015-42956 \* 2RP-3063

Mike,

Your work plan for the above listed release is approved as written. Like approval by BLM is required for this site. Please advise if proposed excavation depths are not met.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
