Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* As I was driving to the Lea D #23 just north east of Lea D #7 injection well I saw the flow line from well #23 spraying fluid into the pasture. I drove to the Lea D #23 and shut the well in to stop it from making a bigger mess. The fluid was coming out from an old fuse that gave out. I called the roustabout gang to come and refuse the flow line and also called a backhoe to come and clean up the impacted area.

Describe Area Affected and Cleanup Action Taken.* The impacted area was about a 10ft by 10ft area

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
