Subject: Deep Buries for Linn Energy
Date: Wednesday, November 12, 2014 7:54:57 AM

Mike,

Thank you so much for visiting with Mike and I this morning. As discussed this morning, two deep buries have been completed and approved for the State A&B Battery and the Turner B #78. These two sites are completed. Rebecca will be sending closures for these soon. The other deep buries that were approved by the NMOCD and the BLM, will not be done as per Linn Energy after the departure of Brian Wall. I will send in an email per your request on each one of those that have not been remediated and will submit for the approval of the other options. Linn Energy does not want to complete the other approved deep buries, therefore I will send updated plans.

Thank you so much for your time in this matter, have a great day!

Natalie Gladden
