Heather I am in the process of getting a professional to help with the Kersey. I have the contaminated soil ( obvious contaminated soil) dug up and in a pile. I am waiting to get a returned call hope to hear from them thurs . I plan to use them on the spill I had over in Lea county as well . I will keep you posted Thankyou

Heather I went to Cardinal labs today and picked up the jars for the soil samples. My plan is to complete the removal of the contaminated soil this week and take samples to Cardinal early next week. The rain could delay the process and I will keep you posted of any changes . I have a site map attached let me know if you need anything else. Thankyou
