Mike,

Below is the correspondence between myself and the BLM.

I'll be putting together the work plan for you next week. Please let me know if you need any more information prior to reviewing the work plan.

*Crissy*

Crissy, I haven't made it to the location, but after reviewing your submittals, we'll have to clean up to the OCD standards, which is what we usually prescribe. The depth of ground water in the area can be shallow, that and the area falling in a medium cave/karst area, we need to stay inside the OCD guidelines. thanks

Jim,

Have you had a chance to look at the information provided?

**Subject:** Salt Draw 11 Fed Com No. 1

Jim,

As requested I have attached a copy of the Soil Bore locations, depths of borings, sampling depths with PID readings and lab analysis for sampling that occurred on September 5, 2014 at the Salt Draw 11 Fed Com No. 1 (API 30-015-23692). Per our phone conversation could you describe what standards for clean up you would like us to use during our remediation process?

Thank you,

*Crissy Forrest*
