Crissy,

The status of your June 2, 2015 submittal is "under review". I do have some questions and concerns about this release site and proposal, so it may take a little more time to address them. A question I have at this point is the following:

- Does Matador intend on removing the tanks to facilitate excavation of the bermed battery area?

Mike,

Could you please let us know the status is of the work plan submitted on June 2 for the remediation activities at the Salt Draw No. 1 location? Matador is ready to begin the work on the site.

If you have any concerns or questions please let me know!

Thank you!
