Leslie,

This closure request has been approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Subject: Release at the Gissler B 3-1 Battery | API #30-015-37240

We had a release of water and oil at the Gissler B 3-1 Tank Battery this afternoon. Total release was approximately 42 bbls (31 Water/11 Oil) with 40 bbls (30 water/10 oil) recovered. There was some flow into the pasture.

I will follow up with the C-141 tomorrow when I get a full report from the field.

Thank you,
