RE: Yates Petroleum * Spunky BUK St Com 1H * **30-015-42624** * D-2-26s-26e
NMOCD tracking number: **2RP-3037** * Date of release: 5/23/15

Chase,

Your proposal for remediation of the above referenced release is approved with the following conditions of approval:

- The soils for bioremediation are to be set in an approximate 6 inch lift, in a lined bermed area.
- If after 180 days, a representative sample/samples do not show impacted material to be within RRAL for the site, OCD does request material be disposed of at an OCD approved disposal facility.
- In the area identified as S2, further delineation of chloride concentration will be required. Target goal for delineation is 250 mg/kg or at depth background, whichever is greater.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Mr. Bratcher/Mrs. Patterson,

Yates Petroleum Corporation is submitting the attached work plan for the above captioned well. The plan is being submitted in response to the C-141 report dated June 3, 2015.

If there are no objections with the scope of work described in the plan, Yates will have a contractor begin work on or after September 1, 2015.

If you have any questions, feel free to call me at (575) 748-4171

Thank you.

Chase Settle, M.S.
