Zack,

Your request for closure is approved. NMOCD Tracking Number: 2RP-3061. Date of release: 6/18/15.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Thanks,

Mike Bratcher
