---

Tom,

You may proceed with the above referenced work plan. Be advised that the NMOCD will require a full delineation prior to closure approval. Please notify the district office prior to commencement of remedial activities. OCD approval will be required prior to backfilling any excavations.

If you have any questions or concerns please contact me.

Heather,

Please find the updated work plan for the above referenced site. We have replaced the final C-141 with the initial approved report. Please disregard the previous work plan with the final C-141 attached. Sorry for the confusion.

Thanks,

**Tom Elliott** | Project Manager / Environmental Scientist

Heather,

Tom, with Tetra Tech will be contacting you to discuss.

Attached is the initial approved C141 that should be part of the work plan for everyone's reference.

**Subject:** Cowtown Unit #202 work plan

Reference: Alamo Resources \* Cowtown Unit #202 \* 30-015-41018 \* Sec 13 T18S R26E \* NMOCD  
Tracking number: **2RP-1748** \* Date of Release: 11/12/2013

Ms. Stoker,

OCD has received and reviewed your work plan submittal for the Cowtown Unit #202 release on 11/12/2013. As written this work plan is denied and the included final report C-141 is also denied. OCD will require this site to be fully delineated to RRAL standards prior to any excavation. Target delineation goals will be total BTEX to 50mg/kg, TPH to 100mg/kg, and chlorides delineated to 250mg/kg. A remediation proposal is to be formulated based on NMOCD rules and guidelines and delineation results.

If you have any questions or concerns, and for notification, please contact me.
