Kit,

In re: Memorial Production * North Square Lake Unit 154 * 30-015-04986 * F-34-16s-31e * Eddy County, NM *
Date of release: 4/29/15

The BLM accepts/approves your CAP for the above referenced site. Please notify the BLM prior to backfilling and reseeding activities.

The BLM approval/acceptance does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

NMOCD Tracking Number: **2RP-2982** * Date of release: 4/29/15

Greetings,

Your proposal for remediation of the above referenced release is approved. Notify OCD prior to backfilling excavation. Site is situated on Federal surface and will require like approval from BLM. The SLO does not need notification for remedial operations at this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Afternoon y'all.

This one is yours.

Hope your day is going better than ours.

Have a great weekend!

Kellie Jones

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Please note:

-The OCD is no longer granting "risk-based," or standard closure of events/RPs with remediation deferred to site abandonment/sale/closure. The RP will remain open until such time as historic contamination is addressed.

-Photographic documentation is stipulated for all events involving liquids.

If you have any questions or concerns, and for notification, please contact me.
