RE: 2RP-3350

Sheldon,

Your proposal for remediation of this release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather,

Please find the attached work plan for the SRO St. Com #43. As you may recall this was a release from a Gibson Energy truck onto COG's location. I have replaced the initial C-141 submitted by me on Gibson's behalf with the C-141 submitted by COG. The COG C-141 will be what the final is based off of. Please review everything and let me know if you have any questions or concerns.

Respectfully,

**Sheldon L. Hitchcock**
