**RE: Mewbourne \* Zircon Compressor Facility \* 30-015-23065 \* 2RP-3009**

Zack,

Thank you for the information. Your closure request for the above referenced site has been approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather,

4-5' bgs throughout. Some places we went deeper than 5' bgs and some places we went 3.5' bgs.

Zack,

Thanks for the confirmation samples, they look great. Can you tell me the excavation depths that you reached?
