Six release events 9/8/2012 – 10/23/2014

Cliff,

Your proposal for remediation of the above referenced releases that occurred at the Sand Dunes site is approved. It is noted that BLM has also approved this proposal.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

**Subject:** OXY Sand Dunes 28 Federal #1 SWD Battery - Remediation Plan

Mike and Shelly,

I have attached the remediation materials that we used in our discussions about the remediation plan for the Oxy Sand Dunes 28 Federal #1 SWD Battery. Both of you have now verbally agreed to this plan as depicted on the aerial diagram.

If you would please reply via email with your approval and concurrence of this plan, it would be greatly appreciated. As soon as your email approval is received, Oxy plans on implementing this plan immediately. If you have any questions, please let me know.

Thanks, Cliff
