As per the condition of approval for the remediation proposal, this closure report is accepted, with remediation of the area identified as SP-1 deferred to time of facility closure. Notations reflecting this deferment will be made in well file records.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.
