Subject: Re: Closure report, Trapper 13 Fed Com #002
Date: Tuesday, January 19, 2016 1:40:01 PM

As per COA's, the BLM accepts this closure report. Note: remaining impact will have to be addressed upon facility closure.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

RE: COG Operating * Trapper 13 Fed Com #2 * 30-015-31568 * 2RP-3275

Ms. Purvis,

As per the condition of approval for the remediation proposal, this closure report is accepted, with the remediation of areas identified as SP1, SP3, and SP5 deferred to time of facility closure. Notation reflecting this deferment will be made in well file records.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
