**RE: BOPCO \* PLU 411H \* 30-015-39930 \* 2RP-3107**

Bradley,

Your proposed work plan for the above listed release is approved. Like approval by BLM is needed on federal sites.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike, Heather

Please find the attached initial C-141 and lab report for the release that occurred at the PLU 411 battery under 2RP-3107. Bopco request to remove the surface soils from the release area and backfill with clean caliche. Upon approval and the completion of field activities a closure report will be submitted.
