RE: BOPCO * PLU CVX JV BS #28H * 30-015-42393 * 2RP-3496 * 2RP-3516

Bradley,

Your backfill request is approved. Your request to submit closure report is approved once the site has been backfilled.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike/ Heather,

Per our meeting and discussion on 2-11-16, We have two open 2RP's on this location due to stuffing box releases, BOPCO has sent an environmental response crew to the site and conducted an initial scrape of the spill area along with a sampling event. Based on the review of supporting documents BOPCO request permission to backfill the surface excavation and submit a closure report for 2RP 3496 and 2RP-3516. Thank you
