Subject: RE: Linn Energy Turner A #43 closure report

RE: Linn Energy * Turner A 43 * 30-015-28793
2RP-3059 * Date of release: 6/15/2015

As per Linn's proposal, the above referenced release is deferred to close of facility. The incident will remain open in OCD database with notations made referencing the deferral.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
