RE: Candelario 1 * 30-015-26536 * **2RP-2400** * DOR 7/8/2014

Mr. Enis,

Your proposal for installation of an initial monitor well at the above referenced site is approved. As indicated in your proposal, OCD may require the installation of additional wells to complete the groundwater investigation and or remediation phase of this project. Please notify the District office once drilling activities have been scheduled.

Thank you.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike Bratcher

Subject: Candelario 24 #1 SWD Battery Well Installation Plan

Mike,

Please see the attached Well Installation Plan for the Candelario 24 #1 SWD Battery site (No. 2RP-2400). We are tentatively scheduled to conduct the well installation next week. Please let us know if you have any questions on the plan, we will wait for your approval to conduct the work.

Thanks,

Sam Enis, P.G.
