RE: OXY USA * Pure Gold B Fed 20 * 30-015-30605 * **2RP-3536** * DOR 1/24/2016

Cliff,

Your proposal for remediation of the above referenced release is approved with the following exceptions:

- In the localized area identified as SP1, OCD requests a 3' excavation
- In the localized area identified as SP3, OCD requests a 5' excavation

Federal sites will require like approval from BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: OXY-Pure Gold B Federal #20-Remediation Plan

Mike, I am resending this as I had the wrong cover page in this packet. It is now corrected. Apologize for the confusion.

Mike,

This e-mail is to confirm our discussion concerning the remediation plan for the Oxy Pure Gold B Federal #20 release. I have attached the information packet that we used in our discussion with a cover page describing the remediation plan that we agreed upon.

If you would please reply back via e-mail with your concurrence on this plan, it would be greatly appreciated.

Thanks, Cliff
