**Eddy County, NM**

Mrs. Heather Patterson,

COG Operating LLC would like to submit for your consideration the enclosed documents for closure of the above captioned release. The closure is in response to the C-141 Initial report dated August 25, 2015.

All work has been performed in accordance with the approved work plan and stipulations set by the NMOCD District 2. The area was excavated to a depth of 4' and backfilled as requested with approximately 2.5' of topsoil leaving the area slightly higher than the surrounding grade. To reduce compaction, the remediated area was cross ripped against the contour of the land and a berm was built to detour traffic away from the remediation. The placement of the berm was chosen based on the existing Regency right of way. The area will be reseeded in June 2016 with the BLM #3 seed mixture.

A C-141 Final has been attached for your consideration. Please feel free to contact me with any questions at (432) 683-7443.

Sincerely,

**Robert Grubbs**  
Senior Environmental Coordinator

Describe Cause of Problem and Remedial Action Taken.\*

Concho received notification of a spill near COG flowlines. The spill was dry and unclear as to when it occurred. Following an investigation it was determined the release most likely occurred from an illegal dump. The dump site is located off a busy oil field road.

Describe Area Affected and Cleanup Action Taken.\*

The impacted area is in the pasture at 32°03'53.34" 104°05'59.40" Concho will have the spill site sampled to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
