Subject: SM Energy - 2RP2889 -Geronimo Closure Report
Date: Monday, April 11, 2016 1:26:37 PM
Attachments: SM Energy -2RP-2889- Geronimo Closure Report -Final.pdf

Mike and James,

Here is the closure report for the Geronimo Tank Battery located in Eddy County, New Mexico. As recommended, Tetra Tech re-sampled the chloride impacted areas on the pad due to the recent rains. Based on the results, the chloride concentrations showed a significant decline in the soils. Please review and let me know if you have any comments or questions on the report. Thanks
