Afternoon,

The BLM accepts your proposed work plan for the Cotton Draw 163 as written.

The BLM approval/acceptance does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

RE: Devon * Cotton Draw 163 (11 Fed 2H) * 30-015-39375 * 2RP-3021 * 2RP-2736

Rebecca,

Your proposed work plan for the above listed site is approved as written. Like approval by BLM is required for this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not

relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Good Morning,

I have attached the Remediation Plan for the above site for your review and approval. Please let me know if you concur, have questions or conditions regarding the approval. As always, upon completion of the work I will forward the necessary closure documentation, inclusive of the final laboratory confirmations regarding the sidewall and bottom samples.

Have a great Tuesday!

Thank You

Rebecca Pons
