The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

RE: OXY USA * Shugart 6 Fed Com 1 * 30-015-31313

Cliff,

Your proposal for remediation of the above referenced release is approved. Additional excavation may be required in the area identified as SP 7, dependent on the confirmation sample. OCD notes BLM has approved this proposal.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: OXY Shugart 6 Fed Com #1 Battery - Remediation Plan

Mike and Shelly,

I have attached the remediation materials that we used in our discussions about the remediation plan for the Oxy Shugart 6 Fed Com #1 Battery. Both of you have now verbally agreed to this plan as depicted on the site diagram.

If you would please reply via email with your approval and concurrence of this plan, it would be greatly appreciated. If you have any questions, please let me know.

Thanks, Cliff
