RE: **2RP-3686**

Bradley,

It looks like everything was on surface. If that has all been removed, go ahead and backfill. If you would, please send a site diagram with the closure. Federal sites need BLM approval also.

Thanks,

Mike Bratcher

Subject: PLU 332H Initial C-141 and Sampling info

All,

Please find the attached initial C-141 and sampling log for the PLU 332H. We have conducted an initial scrape of the spill area (Surface) and will be submitting samples to the lab for analysis, based on the field screening I would like to request permission to backfill the site upon receiving the lab data. If you have any questions please let me know. Thanks
