Subject: EOG Release at Cedar Lake 35 Fed Com 2, Eddy County

Good Afternoon

We had an oil release inside containment from an oil tank that rotted at the bottom. They estimated a release of 188bbls of oil and recovered only 2 bbls. Nothing was off pad and some leached through the dirt containment walls. Reason for the late notice is that this is not a battery we check every day apparently and we needed to make sure on the amount of oil we lost. Thank you.

Zane Kurtz

Sr. Environmental Representative
