**RE: De La Sierra Trucking \* Carlsbad Truck Yard Release \* 2RP-3296**

Ms. Estrada,

I am writing to get an update on your progress at this location. It was OCD's impression that work would begin around February, but so far we have no indication of any work being done or contaminated soils removed. The OCD agreed to allow De La Sierra stock pile contaminated soils on a bermed liner and haul off to a proper disposal in stages in order to control the cost of cleanup. Part of this agreement included quarterly progress reports from De La Sierra to the OCD. Please provide a complete update of all work performed thus far, including disposal tickets for contaminated soils.

Thank you,

Heather Patterson  
Environmental Specialist  
NMOCD District II  
Office (575)748-1283 ext.101

**Subject:** Form C141

Hello, ok so I typed it so you can understand it better, please let me know if I need to do anything else.

Thank you for all your help and patience.

OLivia Estrada  
VP
