RE: Devon Energy * Cotton Draw Ut 292H * 30-015-43261 * **2RP-3510** * DOR: 1/20/16

Kimberly,

Your proposal for remediation of the above referenced release is **not** approved at this time. A “high pressure line” is referenced in the body of the proposal, but is not identified on the site map. There does appear to be a poly line on the far eastern edge of the flowpath, but not sure if this is the line referenced. Pending clarification as to the position of the referenced line, OCD would prefer a minimum 4’ excavation with a liner installation. Please advise regarding the location of the line.

Thank you,

Mike Bratcher
