RE: COG * Screwdriver 24 Fed Com #2H * 30-015-42914 * 2RP-3609

Amanda,

Your work plan for the above listed release is approved as written.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: [External] Re: (Arch Clearance) SCREWDRIVER 24 FEDERAL COM #002H (30-015-42914)

**** External email. Use caution. ****

The email you sent me referenced the Lusk Deep Unit A 23, but I checked the area around the Screwdriver 24 Federal Com 002H and you are cleared for Arch if you are working right around the location.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

The BLM acceptance/approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater,

surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Ms. Tucker,

I would like to request an arch clearance for the Lusk Deep Unit A #23H release that occurred on 3/1/2016. The approximate release area is noted in red on the attached diagram and covers an approximate area of 60' X 80'. I would like to know if your records indicate whether or not an arch clearance has been done in this area so that I can follow the proper channels to begin sampling and remediation efforts. Please feel free to contact me with any questions.

Thanks!
