Subject: Re: West Redlake Water Station

Good Morning We have reviewed the work plan for the West Red Lake Water Station #1 Battery and approve/concur with NMOCD. We do have stipulations we want to include tho **First one** is the berm surrounding the entire location to be raised 1' ,,,, **Second one** verify berm on the South and East side are solid and intact with a 2' additional height included.

Thank let me know when work is completed for inspection purpose .. Good Day....
