I've attached the C-141 Approved Initial Report and the cover letter, Final C-141 and sample diagram for the above location. Agave Energy is conducting remediation work within the release area that occurred on 10/7/2009 and was asking Yates on the status of equipment nearby. I wanted to be able to reference an approved Final C-141 to show that Yates' remediation work was completed.

If you have any questions or need further supporting documentation, please contact me.

Thank you.
