Subject: Re: LimeRock ESAU Emulsion Line

Will get that to you.

The stretch of line these two releases occurred in has been isolated & taken out of service.
We are researching an alternative route now

Mr. Barrett,

Due to recent releases on Lime Rock's ESAU Emulsion Trunk Line (in the area of Fanning Farms) OCD requests the following:

- A map showing the routing of this line.
- A description of products that the line is used to transfer.
- Maximum, minimum and, normal operating pressures for the line.
- Current status of the line and future plans for the line utilization.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher
