Mike,

Good morning.

Attached please find for your review the proposed Work Plan for remediation of the Parakeet Federal 29 site.

Field activities are tentatively scheduled to begin within the next 10-day period between December 9th and 16th. Your questions and/or comments about the upcoming field activities should be directed to Thomas Franklin at your convenience.

ASSI appreciates the opportunity to work with EMNRD on behalf of Fair Oil, during the environmental remediation process for a portion of our client's New Mexico assets.

Regards,
