Bruce,

Are the samples marked "surface samples" areas that have already been backfilled?

Also, in reviewing the hard file here in the office, it looks like we are missing some of the data electronically. I am including a link to what we have in our imaging system. Could you take a look at it and send what we need to complete the file?

All,

Attached is a diagram associated with the inside area of the pad. Apache request permission to proceed with backfilling the pad area. Please let me know if you have any questions. Thanks and have a good day.
