RE: EOG Y * Kiawah BFQ Fed 1C * **2RP-4012** * DOR: 11/11/16

Chase,

OCD concurs with BLM and approves your request for closure of the above referenced release. It is OCD's understanding that impacted soils were excavated and hauled to a disposal.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike Bratcher
NMOCD District 2
