Subject: RE: Lime Rock Resources: Falcon 3 G Fed #7 Sample Location S-2 Vertical Delineation

Crystal,

As anticipated we got blew 250 mg/kg at sample location S-2 at a depth of 2.75-feet with a total chloride concentration of 85.08 mg/kg. We will excavate this area to that depth and continue with the remediation as described in the work plan. Let me know if you have any questions or concerns.
