BLM concurs.

Final C141 for spills within a lined containment will be accepted and considered approved. Spill incident will not be formally closed until an inspection has been made. Any issues identified at that time will be addressed accordingly.

RE: COG \* Federal F 1 Battery \* **2RP-4049** \* DOR: 12/19/16

Rebecca,

Your request for closure of the above referenced release is approved. It is OCD's understanding that all residual impact in the lined battery has been removed/cleaned. Federal sites will require like approval from BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

RE: COG Operating LLC. \* Federal F #001 Battery \* 30-015-22342 \* 2RP-4049

Rebecca,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval.

Rebecca just an FYI the Initial C-141 you sent had "Dirty Dozen 4H Battery" written in as the Facility name but we noticed that all other information you provided pointed to this release being at the Federal F #001 Battery site so it was entered in for Federal F #001 Battery location in our system and records.

The OCD tracking number for this event is 2RP-4049.

Thank you,
