Subject: RE: CHAMA 3 RECLAMATION
Attachments: table 2.pdf

Henryetta,

Good afternoon. I haven't completed the work plan because we were waiting to get the full delineation. The battery was removed this past Friday and I was out this morning getting the delineation. I've attached the field screen results, and we'll put a rush on the labs. We hit rock at 4 to 5 feet that we could not get through with the backhoe.

For clarification: L7 and L8 are beneath the battery, L6 was my attempt to further delineate chlorides to satisfy the NMOCD requirements.

Let me know if you have any questions.

Thank you,

Heather Patterson
Staff Scientist

Austin,

Per my phone conversation with Henryetta Price with the BLM this afternoon, she needs to be kept in the loop on the progress of the Chama 3 reclamation. I have forwarded to her the work plan for review.

Thanks,

Carie Stoker
