Subject: RE: Closure Report & Final C-141 for HEP Barnsdall #2RP-4020

RE: Holly Energy Partners * Barnsdall Line * 2RP-4020 * DOR: unknown, discovered 11/17/16

Ms. Isenberg,

In regard to your closure request for the above referenced release, it is OCD's understanding that a portion of the pipeline was removed to facilitate excavation, and that no material impacted above OCD Recommended Remediation Action Level was left in place at the site. If this is correct, OCD approves your request for closure. If incorrect, please advise. Federal sites will require like approval from BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher
