The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Good Afternoon,

Please find the attached work plan for the Scottsdale Federal #3 crude oil release from March 1, 2017, 2RP-4146. SMA is aware this location is within both an active Lesser Prairie Chicken Habitat and a Sand Dune Lizard buffer zone.

If you have any questions or concerns, please don't hesitate to call.

Thank you,

Heather Patterson
