Good Afternoon, Kimberly,

Please choose another seed mixture for this site. BLM #1 contains lovegrass and NMSLO prefers mixes that do not have lovegrass. Also, Devon was advised in an e-mail on October 13, 2016 that an ROE would be needed on this site. Has that process been started and/or completed?

Thank you,

Amber Groves

Greetings,

Your proposal for remediation of the above referenced release is approved. Please obtain representative sidewall samples for lateral confirmation in the S-3 and S-4 excavation area. SLO has requested a ROE be obtained for this site. Please advise once remedial activities have been scheduled.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
