Hello Emily,

I am not sure who is the correct person to address this email to within your organization but I trust it will get passed on to the right place, if that is not with you.

I was out in the field doing some random site inspections on 2/27/17, when I came across a release on your site location Poker Lake Unit #36 * API 30-015-10859 * 24S 31E section 28. I have documented the release with pictures which I have attached to this email.

OCD requests a Form C-141 be submitted for this release which appears to have occurred from an equipment failure issue, please rectify the failed equipment immediately and begin performing immediate response efforts as soon as possible. Upon receiving response back from us, after we get your C-141, a delineation and remediation of the site will be required (Conditions of Approval will be attached within our response to your initial C-141).

Please note that since I found more than one site location of your's that had a release on it, I will thus, be sending more unauthorized release notifications following this one.

Please contact me with any questions you may have.

Sincerely,

Crystal Weaver
